Prestige
Nursing+Care

94%

of survey respondents said that Prestige Nursing + Care has made a positive difference to their life.

National experience, delivered locally

Our managed rehabilitation and support services are available nationally and are delivered by local, highly trained professional teams. Our teams work closely with clients and their legal and professional authorised representatives to design, set up and deliver a client's personalised care package to achieve the best possible health and wellbeing outcomes.

A trusted partner

Prestige Nursing + Care specialises in providing condition led care services to individuals in the comfort and safety of their own home, supported by our thoroughly vetted and accredited nursing led care teams.

Breadth of clinical care

Our specialist care and support services provide more intensive and nurse-led assistance for clients who have specific health, rehabilitation and psychological needs. These can range from management of long-term conditions, deteriorating health, acquired injuries and neurological conditions, to learning disabilities.

We provide a range of specialist nurse-led care and support as part of our clients' daily routines, including stoma care, complex bowel management, enteral feeding, suctioning, tracheostomy care and home oxygen therapy.

Holistic approach

Prestige Nursing + Care are highly experienced in providing a person-centred care service to children and adults of all ages.

Our managed service led by our expert clinical team enables us to work responsively in collaboration with multi-disciplinary healthcare teams including consultant neurologists, GPs, physiotherapists, speech and language therapists, and community teams to ensure a holistic approach.

One of our qualified, specialist nurses conducts specific assessment of needs and works with our branch teams to match the appropriate staff to meet the individual client's needs. Our services are fully flexible, and responsive to a change in needs and a 24 hour service is available for every client.

High calibre care professionals

Prestige Nursing + Care recruits the highest calibre of care, nursing and care professionals to support clients with condition led care and support needs.

Prestige Nursing + Care professionals:

- ✓ Undergo a robust recruitment and vetting process including enhanced DBS checks and over 20 compliance checks to validate their qualifications and career experience.
- ✓ Whenever possible will have had experience of supporting people with a learning disability and will have undertaken specialist Mencap training.
- ✓ Will have received bespoke training to support the individual within their care. This includes complex care for medical conditions or acquired conditions as a result of a spinal or brain injury.
- ✓ Have undergone the training applicable to meet the needs of the individuals in their care;
 - Tracheostomy
 - Suctioning – Oral and Tracheal
 - Oxygen Therapy
 - Epilepsy Rescue Medication – Buccal Midazolam & Rectal Diazepam
 - PEG (Percutaneous Endoscopic Gastrostomy) and JEJ (Jejunostomy)
 - NG (Nasogastric)
 - Stoma (Colostomy/Ileostomy)
 - Complex Bowel Management
 - Cough Assist and Assisted Cough
 - Invasive Ventilation
 - Non-invasive ventilation (eg CPAP, BPAP, NIPPY)
 - Management of challenging behaviour through NAPPI UK which is approved by BILD

Personalised service

Compassion is at the heart of our service and our care teams create trusted relationships which offer friendship and companionship. Our professional staff are trained to understand that our care plans are customised and flexible to meet the needs of all of our clients. Our care plans are tailored not just to meet individuals' everyday needs, but to enhance their everyday living. Our local branch teams are highly responsive, providing time sensitive, solution driven services.

We work closely with Case Managers, Solicitors, Personal Injury Lawyers, Financial Deputies and Health Professionals and other Client Representatives to understand both the health, medical and psychological needs and wishes of a client. We work to help our clients achieve the health outcomes that are important to them.
