

MODERN SLAVERY STATEMENT

Prestige Nursing & Care's business is centred around its people and the high standards of competent and compassionate care they deliver to their clients and families.

As such, we firmly commit to ensuring that any forms of modern slavery, hidden labour exploitation and trafficking remain absent from our business and that we remain compliant with all aspects of the Modern Slavery Act 2015 ("The Act").

We are committed to ensuring all our staff are sufficiently trained to understand and recognise any forms of potential slavery or trafficking and build this into our induction programme and on-going employee development.

As part of Elevate Care International, we contribute to and embed the company's Responsible Business Conduct policies within our operations, further reinforcing our commitments to eradicating slavery and trafficking of any form in compliance with The Act.

Sarah Hughes
Managing Director
